

## **UPC Business Notification Large Project PSC Rule 515-9-4-.13 Information Available**

Duluth, GA, March 13, 2009 -- The Utilities Protection Center Inc., (UPC) has information available regarding the Large Project PSC Rule 515-9-4-.13. Compliance with this PSC Rule is being phased in between now and May 1, 2009.

During this phase-in period new Large Project requests will be accepted but are not mandatory. However, as of May 1st projects that meet the Large Project criteria will be treated as such and will become MANDATORY.

Currently there is a document describing the Large Project process on the UPC web site. If you are a UPC Member, excavator or locate technician, it is important to familiarize yourself with this process prior to May 1.
