

Dear Member,

This letter is to inform you that we have received your membership agreement and have begun the necessary process to activate the membership. We will contact you if we have any questions regarding the information provided on the membership agreement.

The next step is to define your service area using our mapping system. This will indicate what areas you will be notified for based on where your utilities are located. A Liaison Manager from Georgia 811 will contact you to help with this process. Once this has been completed and we have been notified by you directly that your service area is complete and you are ready to receive tickets, the membership will be activated.

Upon activation you will receive another email that will include important information related to your membership.

Thank you,

Member Services Department  
Utilities Protection Center, Inc., dba Georgia 811
