

Mapping (Multiple Address)

Multiple Addresses

You may not request more than five address, lots, or buildings to be located on a single ticket. For more information, visit: <https://www.georgia811.com/index.php/locate-request-size-policy/>

- If the work will be taking place on an individual piece of property, a maximum of five individual addresses, buildings or lots/areas will be allowed per ticket.
- The distance between the first and last address may not exceed one mile on a single street.
- A maximum of two tickets (10 addresses, buildings, or lots/areas) can be requested before a Large Project ticket is required. An entire apartment complex must be a large project.

Note: Web users are responsible for the accuracy of information entered on created locate tickets. Notified facility owners/operators are determined by the map data provided by the excavator.

State:	GA	County:	GWINNETT	City:	DULUTH
Address:	Num	PreDir	SUMMIT RIDGE	PKWY	SufDir

Mapping (Multiple Address)

3. Locate Instructions:

- Enter the locate instructions.
 - Enter ALL address numbers for the properties that need to be located not to exceed five addresses, lots or buildings.
 - Describe the area where work will take place with [Sufficient Particularity](#) using concise locate instructions.

Note: Include all information pertaining to locating into this field, i.e. boring information, lot numbers, multiple addresses, etc.

Note: The locate instructions must be in sync with the *Work Type* and *Work Information* questions.

Example: If the work type is to install a water service line, the locate instructions should be to locate from the street to the building, not just the right-of-way.

4. Map/Search Results:

- Select *Use Ticket* to search for a location using the ticket information entered.
- The search results will list options for the *Exact Street*, *Exact Property Boundary*, *Bing Results*, *Bing Intersection*, *Street Begins With* and *Similar Streets*.
- Select the correct street that the work will be on by choosing an option from one of the following:
 - Exact Street
 - Street begins With
 - Similar Streets.

Note: The map will highlight the selected road.

Mapping (Multiple Address)

- Use the *Mark Line* or *Mark Area* tools to select the dig site, making sure to cover all addresses.

- Mark Line – Draws a line on the map with a 200 ft. buffer.
- Mark Area – Draws a shape on the map with a 200 ft. buffer.

Note: You must double-click at the end point to release the tool and complete the drawing.
