

Why we are here?

- "Fleeing blast. Two girls flee in horror after an explosion rocked the Hapeville Day Nursery May 29, killing nine persons. The blast, which heavily damaged the nursery building, was attributed to a bulldozer ripping a gas main while working on a construction project. The gas was believed to have accumulated in the basement before the blast." *AJC 1968*
- "1968 On May 29, a bulldozer ruptured a 1-inch gas service line at a children's nursery in Hapeville, Georgia. The bulldozer operator was unable to find the shutoff valve for the gas line, and shortly after there was an explosion and fire. Seven children and two adults were killed, and three children were seriously injured in the accident." *NTSB study 1970*

Hapeville Day Nursery Memorial

- Permanent Memorial was installed at the site of the explosion – 724 S. Central Avenue, Hapeville, GA
- Honoring the sacrifice of Doris W. Gardner and Mildred Reeves
- Remembering those 7 young children who lost their life
- Shown is Meghan Rafinski, President & CEO of Georgia 811, Hapeville Mayor Alan Hallman and Survivor Tony Gantt

**In loving memory of those who lost their lives in the
Hapeville Day Nursery Explosion
May 29, 1968**

**Roger Buckley, Gail Cumby, Michael T. Kingston,
Shelley Little, Sandra D. Umphress,
Julie Whidby, and Ronnie Wilson.**

**And for Doris W. Gardner and Mildred Reeves
who heroically sacrificed their lives to save so many others.**

In 1968, the Georgia General Assembly responded to this incident by passing the Georgia Dig Law, prompting the creation of Georgia 811's contact center. Those digging in the state need to contact Georgia 811 to have public underground facilities located and marked prior to excavation. Georgia 811's mission is to safeguard underground and overhead facilities through quality education and notification services, promoting safety and preventing damage.

*Georgia 811
Dedicated August 11, 2024*

Mission

Georgia 811 will be an industry leader in promoting safety and preventing damage to underground and overhead facilities through high quality education and notification services.

Strategic Priority Areas

				
Stakeholder Engagement	Education	Legislation	Operations and Technology	Staff and Board Development
Communication, relationship and enhance partnerships	Training content and build awareness of that content	Education, influence and compliance	Business Intelligence – Work force management, CRM Data and Analytics – Thoughtspot data, survey data, Employee Engagement, etc..	Continuing education, development and relationship building

Who are we. Who we serve. What we do.

- Established in 1974
- Nonprofit Organization serving the entire state of Georgia
- Over 860+ Members
 - All are facility owner/operators in the state
 - New Members: Traffic Control and Traffic Management systems
 - This includes GDOT

We provide a free service for professional and DIY excavators... anyone planning to dig. Every dig, every time.

For each notice of a digging project we notify, on average 7 members where the dig will take place.

GEORGIA 811 FUNCTIONS

Provides the participating members an opportunity to identify and locate or otherwise protect their facilities

Provides excavators and the general public a single point of contact for notifying all affected Georgia811 member utility companies before excavating

Notify member facility owner/operators with overhead electric lines that someone/something will be working within 10 feet of the lines

A few functions we don't do: Excavate, Operate Utilities and Locate Underground Lines or Enforce Georgia's Dig Law (GUFPA)

PROTECTING HIGH VOLTAGE AREAS

The most common way the lines are protected is through paint & flags in response to an underground locate request.

High voltage means an electric line that has a voltage in excess of 750 volts between conductors or from a conductor to the ground.

The **High Voltage Safety Act** requires you to contact Georgia811 prior to working within 10 feet of high voltage electric lines. We notify the power company in your excavation area and they will contact you to discuss what protective measures need to take place. There can be a fee for this service from the power company.

Penalties for violations of the **High Voltage Safety Act**

**1ST
OFFENSE
\$1,000**

**SUBSEQUENT
OFFENSE
\$3,000**

Enterprise Services

Description: responsible for the technologies that support the core services of Georgia 811, such as ticketing with GeoCall and eRequest, and reporting with ThoughtSpot. Services include cloud engineering, GIS maintenance, automation, performance monitoring and alerting, as well as troubleshooting and problem management.

Employees:

- Greg Abernathy, Senior Business Intelligence Analyst
- Matt Schorr, Senior GIS Application Architect
- Will Chesson, Software Engineer

Member Services

Description: Supports nearly all activities, offering high-quality care to both internal and external stakeholders. Despite its small size, the department prioritizes delivering excellent customer service at every opportunity.

Employees:

- Michelle Madding, Supervisor
- Melissa Kimsey, Senior Member Services Coordinator
- Christina Hix, Member Services Coordinator
- Salie Johnson, Member Services Coordinator

Essential Functions

- **Set up** new members in GeoCall.
- **Maintain member database** to ensure accurate contact information and ticket delivery destinations.
- **Create online accounts** for members to respond to tickets in PRIS and update service area maps.
- **Guide members** in using the Service Map Editor and assist with service area map updates.
- **Notify members** when they are missing on tickets and assist excavators with getting the facility located.

Liaison Department

Description: responsible for being an educational resource for all stakeholders involved in damage prevention or excavation work in the state of Georgia. Responsible also for assisting with member outreach, damage prevention training and attending community and industry events.

Employees:

- Holly Files, Liaison Director
- Becky Kinsey, Senior Liaison Manager
- Terry McLaurin, Liaison Manager
- O'tania Jenkins, Liaison Manager
- Brenden Cote, Liaison Manager

Current Training

- Member Outreach
- Thought Spot Training
- On-Site Damage Prevention Training
- On-Line Georgia 811 Competent Person Training
(available in English & Spanish)

Corporate Communications

Description: responsible for developing, cultivating and maintaining Georgia 811's identity and brand image. The team works to provide initiatives to mold company image, communicate with internal and external audiences, and sustain a long-term positive reputation.

What We Do

About CGA

Established in 2000, CGA is committed to saving lives and preventing damage to North American underground infrastructure by promoting effective damage prevention practices of today and tomorrow. CGA is a member-driven association of more than 3,200 damage prevention professionals in every facet of the underground utility industry. Membership in the CGA is open to all stakeholders with a genuine interest in reducing damages to the underground infrastructure. CGA's top-tier members represent some of the largest companies and organizations in North America.

CGA is managed by the association's Board of Directors, and its staff is led by President and CEO Sarah Magruder Lyle. In promoting a spirit of shared responsibility, the CGA welcomes all stakeholders who would like to be a part of finding solutions to our damage prevention challenges. Any best practice or program endorsed by the CGA comes with consensus support from experts representing the following stakeholder groups: Excavators, Locators, Road Builders, Electric, Telecommunications, Oil, Gas Distribution, Gas Transmission, Railroad, One Call, Public Works, Equipment Manufacturing, State Regulators, Insurance, Emergency Services and Engineering/Design.

CGA

Mission

The Common Ground Alliance is dedicated to preventing damage to underground utility infrastructure and protecting those who live and work near these important assets through the shared responsibility of our stakeholders.

28 February 2023

3 Areas Contribute to More Than 76% of all Damages

Legend

- Failure to notify 811
- Failure to pothole, maintain clearance, etc.
- Failure by locator to mark accurately or on-time
- Other 19 damage root causes
- Contribute to more than 76% of all damages
